1 INTRODUCTION

This Comments and Responses Report (CRR) has been compiled as an appendix to the Final Basic Assessment Report (BAR) and Environmental Management Programme (EMPR) for the Bothaville Consolidated Prospecting Right and Environmental Authorisation Application project in the Free State Province of South Africa. This CRR outlines the Public Participation Process (PPP) followed for an application for a Prospecting Right (PR) and Environmental Authorisation (EA). Shango Solutions was appointed by Reef Exploration (Pty) Ltd as an independent Environmental Assessment Practitioner (EAP) to assist in undertaking a PPP, conducting a Basic Assessment (BA), and submitting the BAR and EMPR in support of this project.

South Africa, being one of the countries with the most progressive constitutions, enshrined the public's right to be involved in decisions. Section 57(1) of the new Constitution that provides: "The National Assembly may (b) make rules and orders concerning its business, with due regard to representative and participatory democracy, accountability, transparency and public involvement". This provision, along with several others gave rise to many new trends in South African legislation. In environmental legislation, the idea of public participation (or stakeholder engagement) features strongly and especially the National Environmental Management Act, 1998 (Act 107 of 1998, NEMA – as amended) and the recent regulations passed under the auspices of this Act makes very strict provisions for public participation in environmental decision-making.

Public participation can be defined as "a process leading to a joint effort by stakeholders, technical specialists, the authorities and the proponent who work together to produce better decisions than if they had acted independently" (Greyling, 1999). From this definition, it can be seen that the input of the public is regarded as very important indeed.

The PPP is designed to provide sufficient and accessible information to Interested and Affected Parties (I&APs) in an objective manner to assist them to:

- Raise issues of concern and suggestions for enhanced benefits.
- Verify that their issues have been recorded.
- Assist in identifying reasonable alternatives.
- Contribute relevant local information and knowledge to the environmental assessment.
- Comment on the findings of the environmental assessments.
- Obtain information on the outcome, i.e. the competent authority's decision, and how and by when the decision can be appealed.

This CRR lists all verbal and written issues raised by I&APs and stakeholders during the public participation period undertaken for the BA process. A breakdown of the PPP is given within the following sections.

2 LEGAL COMPLIANCE

The PPP must comply with the two important sets of legislation that require public participation as part of an application for authorisation or approval; namely:

1. The Mineral and Petroleum Resources Development Act, 2002 (Act 28 of 2002 – MPRDA).
2. The National Environmental Management Act, 1998 (Act 107 of 1998 - NEMA).

Adherence to the requirements of the above-mentioned Acts will allow for an Integrated PPP to be conducted, and in so doing, satisfy the requirement for public participation referenced in the Acts. The details of the Integrated PPP are provided below.

3 METHODOLOGY

The PPP follows the requirements of Chapter 6 Regulation 41 of GN 326 of the EIA Regulations, (2014) as amended, promulgated under Section 24 (5) of the National Environmental Management Act (Act 107 of 1998 - NEMA), as amended.

3.1 Identification of Interested and Affected Parties (I&APs)

An initial I&AP list was compiled using WinDeed searches to determine the registered landowners of the project affected land portions. The I&AP database was compiled containing the following categories of stakeholders:

1. National, provincial and local government.
2. Agricultural sector.
3. Organised business.
4. Host and adjacent communities.
5. Land claimants.
6. Other organisations, clubs, communities and unions.
7. Various Non-Government Organisations (NGOs).

Affected and landowners have been notified about the project via post and e-mail or SMS and invited to participate in the BA process. Affected and adjacent landowner contact details were obtained via the following process:

- A WinDeed search was conducted to obtain the contact details of the affected landowners, where available.
- Where the property was owned by a company, a Google search was carried out to identify the owners and their contact details.
- Where the property was owned by a Trust, efforts were made to solicit contact details from the relevant municipalities.

3.2 List of Authorities Identified and Notified

The following authorities have been identified and notified of the amendment application:

1. Moqhaka Local Municipality.
2. Lejweleputswa District Municipality.
3. Fezile Dabi District Municipality.
4. Free State Department of Economic, Small Business Development, Tourism & Environmental Affairs
5. Free State Department of Mineral Resources and Energy.
6. Free State Department of Co-operative Governance and Traditional Affairs.
7. Free State Department of Human Settlements.
8. Free State Department of Public Works.
9. Free State Tourism Authority.
10. Free State Department of Water and Sanitation.
11. Free State Department of Police, Roads and Transport.
12. Free State Heritage Resources Authority.
13. National Department of Mineral Resources.
14. National Department of Agriculture, Forestry and Fisheries.
15. National Department of Rural Development and Land Reform.
16. The Council for Scientific and Industrial Research – CSIR.
17. South African Heritage Resources Agency – SAHRA.
18. South African National Roads Agency SOC Ltd – SANRAL.
19. South African National Parks – SANParks.
20. Transnet SOC Ltd.
21. Eskom.

3.3 List of Key Stakeholders Identified and Notified

The following key stakeholders have been identified and notified of the amendment application:

1. Wildlife and Environment Society of South Africa – WESSA.
2. BirdLife South Africa.
3. Endangered Wildlife Trust – EWT.
4. Centre for Environmental Rights.
5. Free State Agriculture.
6. Agri SA.
7. Agricultural Research Council.
8. Federation for a Sustainable Development.
9. Sasol Mining (Pty) Ltd.

3.4 List of Surface Rights/Land Owners Identified and Notified

Table 1 details the surface rights/landowners that have been identified notified of the application.

3.6 List of Registered I&APS

The following I&APs have registered for the project:

1. Fielies Taljaard.
2. Helen Prinsloo.
3. Themba Mabovu.

4. Casper Sengwane.
5. Nathow Mocholotsi.
6. Zoleka Mathiso.
7. Refilwe Evelyn Kole.
8. Palesa Kole.
9. Jappie Kobedi.

3.7 Notification of I&APs

This section provides details on the notification that was distributed as part of the BA process to date.

3.7.1 Initial Notification

The PPP commenced on the 18th June 2024 with an initial notification and call to register period ending on the 22nd July 2024. Initial notification was given in the following manner:

3.7.1.1 Registered Letters and E-mails

Notification letters and e-mails were distributed to all pre-identified I&APs including affected and adjacent surface landowners, government organisations, NGOs, relevant municipalities, ward councillors and other organisations that might be affected. The notification letters were prepared in English, Afrikaans and Sesotho and included the following information:

- List of anticipated activities to be authorised.
- Scale and extent of activities to be authorised.
- Sufficient detail of the intended operation (to enable I&APs to assess/surmise what impact the activities will have on them or on the use of their land).
- The purpose of the proposed project.
- Details of the affected properties (including a locality map).
- Details of the MPRDA and NEMA Regulations that must be adhered to.
- Date by which any request to register as an I&AP must be forwarded through to Shango Solutions.
- Contact details of the EAP.

In addition, a questionnaire was prepared in English and Afrikaans. The English version was included in the registered letters and e-mails sent, and requested the following information from I&APs:

- Information on any potential impacts from the proposed project.
- Suggestions on potential mitigation measures for their anticipated impacts.
- Information on current land uses and their location within the area.
- Information on the location of any environmental features of note within and in the vicinity of the study area.
- Details of the landowner and information (contact details) of lawful property occupiers, if any.
- Details of any other I&APs that should be notified.

- Details on any land developments proposed in the near future.
- Any specific comments or concerns regarding the application.

The Afrikaans version of the questionnaire was obtainable on the EAP website.

3.7.1.2 Background Information Document (BID)

A Background Information Document (BID) was prepared in English, Afrikaans and Sesotho. The English version was included in the registered letters and e-mails, and it included the following information:

- Project name.
- Applicant name.
- Project location.
- Map of affected project area.
- Description of the application process.
- Information on document review.
- Relevant Shango Solutions contact person for the project.

The Afrikaans and Sesotho versions of the BID were obtainable on the EAP website.

Please refer to Appendix F2 for the Proof of Initial I&AP notification.

3.7.1.3 Newspaper Advertisement

Three newspaper advertisements describing the proposed project and BA process were placed in a local newspaper with adequate circulation in the area. The advertisements were placed in the Vista (in English, Afrikaans and Sesotho) newspaper on the 20th June 2024. The newspaper adverts included the following information:

- Project name.
- Applicant name.
- Project location.
- Map of application area.
- Description of the application process.
- Information on document review.
- Relevant Shango Solutions contact person for the project.

Please refer to Appendix F3 for proof of advertisement placements.

3.7.1.4 Site Notice Placement

Twenty (11) correx board site notices (in English, Afrikaans and Sesotho) were placed along and within the perimeter of the application area on the 18th June 2024. The on-site notices included the following information:

- Project name.
- Applicant name.
- Project location.
- Map of the application area.
- Project description.
- Legislative requirements.
- Relevant Shango Solutions contact person for the project.

3.7.1.5 Poster Placement

A3 posters (in English, Afrikaans and Sesotho) were placed at local public gathering places within and around the application area (Bothaville Shell garage shop and Bothaville Golf Club). The notices and written notification afforded I&APs the opportunity to register for the project as well as to submit their issues/queries/concerns and indicate the contact details of any other potential I&APs that should be contacted. The contact person at Shango Solutions, contact number, e-mail and fax were clearly stated on the notification. Comments/concerns and queries were encouraged to be submitted in either of the following manners:

- Electronically (fax, e-mail).
- Telephonically.
- Written letters.

Please refer to Appendix F4 for proof of site notice and poster placements.

3.7.2 Availability of Draft BAR and EMPR Notification

The draft BAR and EMPR was made available for public review and comment for a total period of at least 30 days, from the 18th June 2024 to the 22nd July 2024 at Bothaville Golf Club.

Furthermore, an electronic copy of the report was made available on the Shango Solutions website (www.shango.co.za/public-documents/) on the 18th June 2024.

All pre-identified I&APs were notified of the availability of the draft BAR and EMPR and where to locate it. I&APs were informed to provide comment either in writing or telephonically, to Shango Solutions by no later than the 22nd July 2024.

Notification (in English, Afrikaans and Sesotho) regarding the availability of the draft BAR and EMPR was distributed to all pre-identified I&APs, affected and adjacent surface landowners and given in the following manner:

- Notification letters.
- E-mails.
- Smses.

- Site notices.
- Adverts.

Comments received from I&APs during the draft BAR and EMPR review period are included in this Comments and Responses Report that is submitted to the DMRE for consideration as part of this final BAR and EMPR. Please refer to Appendix F4 for proof of the draft BAR and EMPR availability notification.

3.7.3 Open Day Notification

During the 30 day draft BAR and EMPR review period, An Open Day was held on the 11th July 2024 to present the findings of the Basic Assessment. Notification regarding the session was given in the following manner:

1. Notification letters.
2. E-mails.
3. Smses.
4. Site notices.
5. Adverts.

Notification was provided in English, Afrikaans and Sesotho, and it included details on the venue, dates as well as the duration of the Open Day. Hardcopies of the draft BAR and EMPR was made available at the Open Day venue.

Please refer to Appendix F2 for proof of the draft BAR and EMPR availability and Open Day notification.

3.7.4 Availability of Final BAR and EMPR Notification

The final BAR and EMPR will be available for public review and comment from the 5th of August 2024. An electronic copy of the report will be uploaded on the Shango Solutions website (www.shango.co.za/public-documents/).

All registered I&APs will be notified of the availability of the final BAR and EMPR on the 5th August 2024. I&APs will be informed of the timeframes for comments to be submitted to Shango Solutions. I&APs will be informed to provide comment either in writing or telephonically, directly to the DMRE and copy Shango Solutions in all correspondence.

Notification regarding the availability of the final BAR and EMPR will be given in the following manner:

- Notification letters, e-mails and smses will be distributed to all pre-identified I&APs, I&APs who registered during the project initiation and draft BAR and EMPR review notification periods, as well as affected and adjacent surface landowners.

Table 3 details the opportunities provided for public participation to date.

Table 3: Opportunities provided for public participation.

Public Participation Phase			
Action	Description	Publication/Place	Date
Initial public notification (announcement of project)	Newspaper advertisement (Appendix F3)	Newspaper	20 June 2024
	Placement of site notices (Appendix F4)	A2 site notices within and around the site area (11 locations)	18 June 2024
	Placement of posters (Appendix F4)	A3 posters will be placed at key public places within the site area	18 June 2024
	Notification of landowners and key I&APs (Appendix F4)	I&APs were notified via e-mail, and/or post	18 June 2024
Announcement for public review of draft BAR and EMPR	Notification of landowners and key I&APs (Appendix F2)	I&APs were notified via e-mail, post and sms	18 June 2024
Announcement of Public Meeting	Notification of landowners and key I&APs (Appendix F2)	I&APs were notified via e-mail, post and sms	18 June 2024
Announcement of public review of final BAR and EMPR	Notification of landowners and key I&APs (Appendix F2)	I&APs will be notified via e-mail, post and sms	05 August 2024

4 PUBLIC MEETING/OPEN DAY

As indicated above, An Open Day was held to present findings of the Basic Assessment process. The schedule for Open Day is presented in Table 4.

Table 4: Details of the Open Day.

Date	Time	Venue	Contact Details
11 July 2024	10:30 - 14:30	Bothaville Golf Club	056 515 2951 083 409 5214

During the Open Day session, informative A2 posters were displayed on the walls by Shango Solutions (the EAP) prior to the open sessions. English, Afrikaans and Sesotho A4 versions of the Open Day posters were provided to the attendees. The EAP was available during the public Open Day for one-on-one discussions and questions from the public.

Please refer to Appendix F5 for proof of the Open Day minutes and the attendance register, and Appendix F6 for the Open Day Photos.

4.1 Notes of the Open Day

As discussed in Section 4, An Open Day was held on the 11th July 2024 and I&APs were given the platform to raise their concerns and provide comment on the project. Issues that were raised during the Open Day are highlighted in Table 5.

Table 5: Minutes of the Open Day.

COMMENT	RESPONSE
<p>Hulle het in 2023 geboor, impak van boor bestuur van mense was onaangenaam en hulle was geen respek vir die eienaar en sy grond</p> <p>They drilled in 2023 and 2024, the impact of the drilling and the management of the people were unpleasant. They had no respect for the owner and his land.</p>	<p>Your comment is duly noted. We apologise for the manner in which the previous drilling programme was managed. We will inform the applicant of your experience for consideration going forward.</p>
<p>Die mense van die projek verniel drade van vee. Hekke word nie oe gemaaknie. Hulle slaan tente op sonder eenige toestemmin. Dit is nie aanvaarbaar on as boere nie.</p> <p>The people of the project destroyed the fence. Gates were left open. They pitched tents without any consent. This is not acceptable to us as farmers.</p>	<p>Your concerns regarding the gate have been noted will inform the applicant for consideration going forward.</p> <p>According to the Basic Assessment Report and Environmental Management Programme (BAR and EMPR) accompanying this application, no accommodation for staff and workers will be provided on-site unless permission is granted by the landowner. Should the landowner not grant permission, all persons will be accommodated in nearby towns (i.e. Bothaville) and workers will be transported to and from the prospecting site on a daily basis.</p> <p>To ensure security measures are observed, the applicant will enter into a formal written agreement with the affected landowners prior to accessing any portion of land which will additionally stipulate the landowner’s special conditions and will form part of a legally binding agreement.</p> <p>The Applicant will also be required to adhere to the conditions stipulated in the BAR and EMPR which include mitigating safety and security risks during</p>

	drilling.
Should there be further drilling on the property, I will put more stringent conditions in place. I will draw up a contract stating that there should be 24 hours security at the gate and completion of a register will be compulsory upon entering the property. In addition, all personnel will have to wear proper PPE and name badges.	Thank you very much, your comments are noted. The applicant will enter into a formal written agreement with the affected landowners prior to accessing any portion of land which will additionally stipulate the landowner's special conditions and will form part of a legally binding agreement. The Applicant will also be required to adhere to the conditions stipulated in the BAR and EMPR which include mitigating safety and security risks during drilling.
Please inform the community before drilling commences	Your comment has been noted and has been included as a mitigation measure in the BAR and EMPR.
Will this project employ community members?	Your comment about employment is noted thank you. The BAR and EMPR states that, where possible, the Applicant and contractors will source local labour. However, the number of jobs would not be substantial and duration thereof would be short lived.

5 COMMENTS RAISED

Table 6 details comments received and addressed to date.

5.1 How Comments Raised Were Addressed

Comments raised were addressed in a transparent manner and included in the compilation of the BAR and EMPR in the following manner:

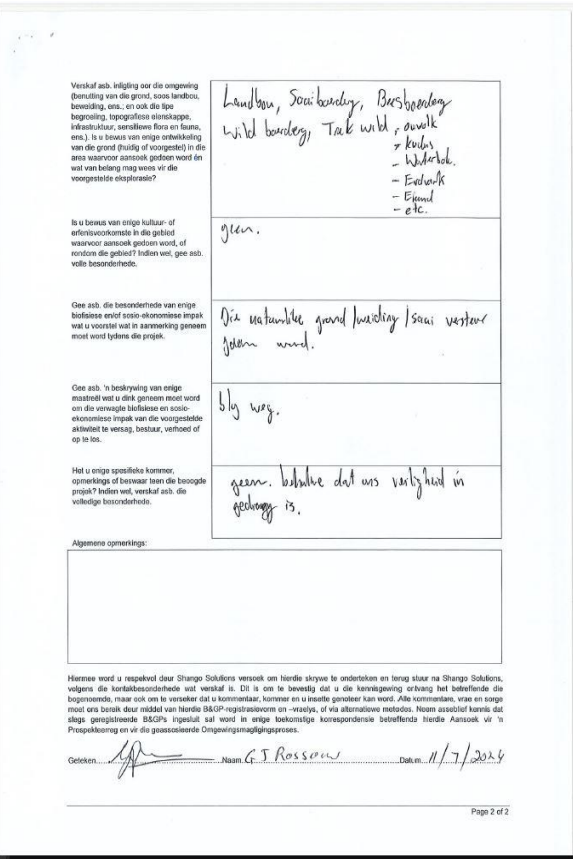

1. Comments raised were used quantitatively to calculate the significance of impacts both real and perceived.
2. Comments raised were used to provide further suggestions and recommendations with regard to technical management options for impacts.

Comments received by Shango Solutions to date have been included in this report as part of the report submission to the DMRE (the competent authority). Please refer to Appendix F7 for copies of correspondence.

Doornheuvel Trust (Giepie Rossouw)	Open Day	11 July 2024		<p>Description of the receiving environment (Including land uses, infrastructure, sensitive fauna and flora):</p> <p>Thank you for completing the Interested and Affected Party registration form. Your comments regarding the different species present within the application area are well noted. Specialist studies (Ecology (flora and fauna), Wetlands, Palaeontology and Heritage) have been commissioned for this project in order to identify sensitive features within the application area. Any sensitive features identified have been included in the draft and updated Basic Assessment Report and Environmental Management Programme, and appropriate mitigation measures have been proposed.</p> <p>Bio-physical and/or socio-economic impacts that should be considered during the study:</p> <p>Please note that the proposed prospecting activities will not disrupt farming on your farm.</p>

I&AP	Method	Date Comment Received	Comment Received	Response Issued
				<p>Vegetation clearing for prospecting sites will be kept to a minimum in order to reduce the disturbance footprint. Any changes that can emerge during the project will be clearly communicated with the landowner/s and mitigation methods will be proposed.</p> <p>Describe any measure you believe should be implemented to mitigate, manage, avoid or remedy the anticipated impacts:</p> <p>Your objection to the proposed project is noted and will be taken into account by the Department of Mineral Resources and Energy in their decision-making.</p> <p>Any specific concerns, comments or objections to the proposed project:</p> <p>Your safety concerns are duly noted, thank you. The Applicant will enter into a formal written agreement with the affected landowners prior to accessing any portion of land which will</p>

Themba Mabovu	Open Day	11 July 2024		<p>General comments:</p> <p>Thank you for completing the Interested and Affected Party registration form. Your comment is noted thank you. As stated in the Basic Assessment Report, should prospecting prove successful and a resource quantified, it would indicate a potential in the form of mining which will contribute greatly for local economic stimulation through direct employment, future business opportunities, royalties and tax revenues.</p>
